Foundation of faith: the Bible
Holy Scripture is the foundation for the doctrine of the New Apostolic Church. It is the starting point and foundation for the sermon. Every interpretation of Scripture must be guided by the Holy Spirit and oriented towards Jesus Christ.

Content and structure
The Bible is a collection of books from Old Testament times which came into being over a span of more than 1000 years, as well as books from the New Testament period, which were composed over a span of about 70 years.
Jesus Christ is the centre of Scripture. According to Christian understanding, the principal aim of the Old Testament is to prepare the incarnation and activity of the Son of God. Important, therefore, are the statements of the Old Testament that are in agreement with the gospel, as is witnessed by the New Testament.

The New Apostolic community
Across cultures and generations, New Apostolic Christians are united by the goal of finding acceptance at the return of Jesus Christ. And this hope shapes the worldwide congregation as well as the congregation outside our own front door.
How do North and South, West and East come together? How do young and old, poor and rich, and the sick and
